

VINAYAKA MISSIONS UNIVERSITY
AARUPADAI VEEDU INSTITUTE OF TECHNOLOGY, PAIYANOR
SEMINAR ON “INTRODUCTION ,TRENDS AND OPPURTUNITIES IN THE SPACE
OF AUTOMATION”

A Seminar on “ Introduction ,Trends and oppurtunities in the space of Automation was conducted by Electrical and Electronics Engineering department at 10.30 a.m on 2.8.17 at Digital Room–II. Prof. **P. Rajasekaran HOD/EEE** was present in the meeting. Ms.P.Poornima Assistant Professor Gr-II EEE department delivered the welcome address. Ms.L.Chitra, Associate Professor EEE department introduced the Chief guests. Mr.Rajesh Raman and Ms. Bhuvana from Transforth Engineering Solutions.

They gave introduction about automation, the technique of making an apparatus, and about the systems which operates automatically. They also gave a detailed exposure on how automation provides benefits for various industrial applications like Manufacturing, including food and pharmaceutical, chemical and petroleum, pulp and paper, Transportation, including automotive, aerospace, and rail, Utilities, including water and wastewater, oil and gas, electric power, and telecommunications, Defense, Facility operations, including security, environmental control, energy management, safety, and other building automation. The programme was very useful to the students especially for the final years who are going to undergo project works. Around 60 students of IV and III year EEE and Mechatronics students attended the Seminar. Ms.J.Suganthi Assistant professor Gr-II EEE department gave the vote of thanks.
