

Report on Two day Hands on training

31st August & 1st September 2016

Hands on training on “Basic Microbial techniques in the Industrial Enzymes Production & Purification”

Resource persons: Dr.V.Selvaraj, Vice President, MTR Pvt Ltd., &

Mr. V. Saravana Perumal, General Manger, Abbess Biotech

A Two day hands on training on “Basic Microbial techniques in the Industrial Enzymes Production & Purification” was organised by the department of Biotechnology on 31st August & 1st September 2016. The training programme was inaugurated in the college Auditorium. Dr.K.Velmurugan, Head of the Department welcomed the chief guest **Dr.V. Selvaraj, Vice President, Biosimilar & Preclinical Micro Therapeutic Research Labs Pvt Ltd, Chennai**, other dignitaries on the dias and the gathering which was followed by the presidential address by Prof.D.Vijendrababu, Principal i/c, AVIT. The principal appreciated the department for organising such a training programme and elaborated the importance of learning techniques and motivated the students to learn the new technologies in the field of Biotechnology.

The resource person interacted the gathering with the introduction on the techniques which have planned to involve in the training and their significance in Research. He also emphasized on the various methods of enzyme production and its applications in Industries. The chief guest also briefed on the research facilities and about the training programmes for the students and faculty members available in his research lab. The inauguration ended with the vote of thanks by Dr. R. Devika, Professor, Dept. of Biotechnology.

The technical session will be conducted for the registered Biotechnology students and Faculty members in the Microbiology Lab.
