REPORT

The Department of Biotechnology has organized Guest Lecture on “Signal Perception and Transduction in Plants” on 21st February 2018. Dr.Giri Rengasami , Dean –CSR, VMU addressed the gathering. Dr.S.Madhavan, Professor from Nebraska University, USA gave a interesting lecture on Plant behaviour and some of its significance like Guard cells, Stromata, acetyl choline signal transduction and importance of ethylene in ripening. The students made the session interactive by raising questions. The function ended with the National Anthem.
