DEPARTMENT OF PHARMACEUTICAL ENGINEERING REPORT ON

EXPOSURE AND FIELD VISIT FOR PROBLEM IDENTIFICATION

The Department of Pharmaceutical Engineering under Institution's Innovation Council (IIC) has organized for a field visit to the adopted village sirudhavor on 29th Nov 2022. The NEP insist in participatory learning in addition to theoretical knowledge and hence being a pharmaceutical student this field visit is arranged to have a better understanding about the disease that prevail among the rural people due to lack of basic health facilities. This visit has lighten up the young minds about the need of the area people and the severity of the issues faced. The visit first started at school with questionnaires to health and they also educated the importance of hygiene ,demerits of open defecation , water pollution and since that time where many people have been affected with conjunctivitis questionnaires were also to it and eye care . The school students actively participated in the survey. Then we went to the streets and discussed with the family members at the village and also visited Anganwadi. After the visit the pharmaceutical engineering students were able to makeout that lack of awareness about the most prevalent diseases and hence planned for health related awareness program and medical camp in future. They have also volunteered to donate beuro to the Anganwadi by understanding the necessity.

SURVEY AT SCHOOL

THE REFRESHMENT VOLUNTEERED BY AN VILLAGER

SURVEY AT RESIDENTIAL AREA

KNOWING THE PROBLEMS AT ANGANWADI

**THE VILLAGE IS THE CELL OF THE NATION AND THE CELL LIFE MUST BE HEALTHY
AND LET THE EDUCATED BE A PART IN SAFE GUARDING IT**

**PEACE CANNOT BE KEPT BY FORCE; IT CAN ONLY BE ACHIEVED BY
UNDERSTANDING**
