## DEPARTMENT OF BIOTECHNOLOGY

### ALUMNI INTERACTION ON 27-8-2019

**Mr. Senguptha** is an alumnus from the batch of 2006 to 2010. He started his address by showing his gratitude towards the college, "I am really thankful to college and Department of Biotechnology since they gave me the resources and confidence to discover my potential". The college really took time for students to get to know themselves. During interaction with the student he mentioned many narratives from his time in college and his experience in the industry at present. Further he specified that the students should emphasise more on practical knowledge including experiments, projects, assignments and hands on training as added advantages in this field. He further mentioned that practical exposure leads to a much deeper understanding of a concept through the act of doing and personal experience. Work & Learn is the only and the best formula to have flying colours in life.
