

DEPARTMENT OF BIOTECHNOLOGY INTERNATIONAL WEBINAR REPORT

17.12.2020

BIOPOLYMERS IN NANOTECHNOLOGY

Department of Biotechnology organized one day International Webinar on “**BIOPOLYMERS IN NANOTECHNOLOGY**” by **Dr. ANTONY V SAMROT, Senior Lecturer and Program Co-Ordinator- School of Biosciences, MAHSA University, Malaysia**. At the outset Dr.R.Devika, Professor and Head, Biotechnology delivered the welcome address followed the introduction of the speaker Dr.B. Prabasheela, Associate Professor. After that, chief guest Dr. ANTONY SAMROT delivered the Lecture on overview of biopolymer in Nanotechnology, explained about biopolymer extracted from the plant gum, synthesis of biopolymers from various plants, formulation development, application of biopolymers in various fields especially in their anticancer property of biopolymers in details. The webinar was hosted through zoom platform where international students also participated. At the end of the session, questions were raised by the participants in chat box, all the question clarified by the chief guest, Dr.A.Nirmala Assistant Professor Gr II, delivered the vote of thanks. Through this webinar all faculty members and students got benefited.
