DEPARTMENT OF MECHANICAL ENGINEERING INAUGURATION OF INDIAN INSTITUTION OF PRODUCTION ENGINEERS (IIPrE)

&

Report – Seminar on "MANUFACTURING 4.0"

23rd January 2020

No. of. Participants- 43

Resource persons: 1.Prof. D.R.Kiran, Advisor, IIPrE, TN Chapter

2.Dr.D.Thirunakkarasu, Chairman, IlprE TN Chapter

3. Dr.K.V.Krishna Sastry, Vice - Chairman, Editor, IIPrE Newsletter.

4. Mr.Ramani Balakrishnan, Secretary, IIPrE TN Chapter

Department of Mechanical Engineering Inaugurated student chapter of Indian Institution of Production Engineers (IIPrE) and conducted a seminar on the topic "MANUFACTURING 4.0" on 23rd January 2020 by Er. Ramani Balakrishnan, General Manager in GM Pens India ltd, Chennai.

The topics covered in seminar

- Introduction about Industrial Revolution.
- Recent technologies used in manufacturing 4.0 Artificial Intelligence, Robotics, Big Data, Machine Learning ,cloud computing, Quantum computing, Nano Technology, Synthetic Biology, Additive manufacturing, Autonomous Vehicle, wireless network, IOT.
- Briefly explained the topics Additive manufacturing, IOT and Autonomous Vehicle.
- Functions of IOT technologies.
- Explanation about Additive manufacturing.
- Automated guided vehicle (AGV).
- Applications of Intelligence manufacturing.
- Uses of Artificial Intelligence.

Seminar Outcome

- Students understood the importance of Artificial Intelligence.
- Known about upcoming trends in industries.
- Learned about industrial revolution in past years.

Students Suggestion

- To conduct practical session of models, designs, drawings, books, articles in connection with the development and improvement of Production.
- To arrange regular guest lecture and industrial visit.
 The seminar was coordinated by Mr.G.Antony Casmir, Assistant Professor (Gr-II),
 Prof .N.lakshminarayanan Assoc. Prof/mech, (Executive member,IIPrE) and Prof. L.Prabhu HOD Mechanical department.
