Report on International Webinar on Public policy for long term Energy planning – The Chilean Case

Date: 23-11-2020

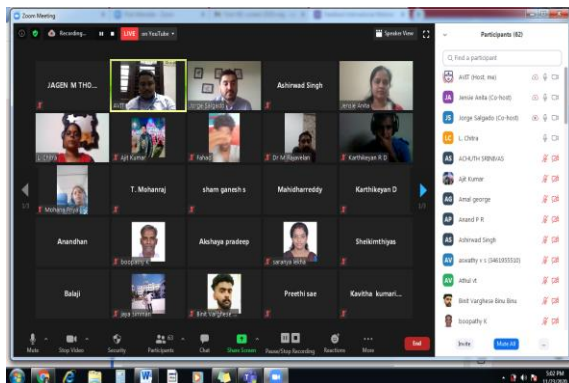

Time: 4.00 P.M

Webinar Platform: Zoom

The Department of Electrical and Electronics Engineering of Aarupadai Veedu Institute of Technology organized an International Webinar on “Public policy for long term Energy planning – The Chilean Case”. The Guest Speaker of the day was Mr.Jorge Salgado Contreras. The inaugural address was delivered by Dr.L.Chitra, HoD/EEE.

After a brief introduction about the guest, the session was taken over by Mr. Mr.Jorge Salgado Contreras. He started the session briefing about the contribution to improve energy management and participation of the local community and stakeholders in order to implement innovative projects of sustainable energy in different cities of Chile. He then explained in detail about how to implement the objectives of Energy management.

He shared his views on the Local energy strategy which included (i) Energy Analysis, (ii) Vision, objectives & (iii) Action plans.

There were about 120 participants from EEE, Mechatronics and SAE and also the other Engineering departments of AVIT. There were participants from other universities from India and abroad. The students were very interactive and had their doubts clarified. The session was very useful to all the participants and was concluded with a vote of thanks proposed by Mr.V. Rattan Kumar, AP(II)/EEE.
