On November 2, 2023, the Department of Pharmaceutical Engineering hosted a conference with the theme "Nature's medicine cabinet: Marine organisms as a source of Pharmaceuticals." The goal of the lecture was to instill in the students the knowledge that the marine environment is a vast and varied source of potential new medications to treat serious illnesses. Dr. B. Prabasheela, Professor and Head of the Department of Pharmaceutical Engineering, gave a welcome speech to begin the program. She also emphasized in her speech the value of marine sources in drug research and the need for students to embark on a few related projects. Opening remarks and introduction of the program was given by Ms. Rubasri & Mr. Nitesh Pandit, III yr Pharmaceutical Engineering students. The chief guest, Dr. Shabna Roupal Morais, Associate Professor, Department of Pharmacy, SRIHER was introduced to the audience by Dr. Swadhi Balasubramanian, Asst. Prof. G II. In addition to discussing on the many marine sources, Dr. Shabna Roupal Morais' discussion included her research work and the main challenges she encountered during the isolation and synthesis procedure. Participants acquired an understanding of the ecological significance of marine life. The program effectively raised awareness of the need to conserve marine resources and stressed the necessity of sustainable practices in order to maintain these essential ecosystems. The lecture was extremely informative

and participatory. The program ended at approximately 3:30 p.m. The vote of thanks was given by Ms.Preethi, Assistant Professor.
