REPORT ON NATIONAL RECYCLING DAY 2023

The EVS Club of AVIT celebrated National Recycling Day 2023 which is celebrated every year worldwide on 15th of November. The EVS Club organized an event, Waste to Wow on 16.11.2023 in the Physics Laboratory. Students, especially the first years were encouraged to participate in the event. On the day of the event more than 17 groups of students enthusiastically participated. The students were asked to make different types of products from waste materials that they find in their day to day lives. Students utilized waste papers, cardboards, plastic water bottles etc to create beautiful wall hangings, storage containers, money banks etc. Based on this year's National Recycling Day 2023 theme, Creative Innovation, students were asked to think out of the box to find new ways to reduce, reuse and recycle. Students claimed to not only enjoy the recycling process but also said it helped them to use their imagination and creativity. Through this event, the awareness that waste can be recycled and reused for different purposes was spread to the students. Based on their performance and creativity, the first four prize winners were selected. The selected prize winners were awarded with prizes and certificates.
