About Guest Lecture:

The event on Logistics and Supply Chain Management aimed to provide participants with a comprehensive understanding of the field's scope and its critical role in global business operations. Attendees explored various career opportunities such as logistics analyst, supply chain planner, warehouse manager, and procurement specialist. The sessions highlighted essential industry tools, technologies, and globally recognized certifications that enhance employability. Through real-world case studies and interactive discussions, participants gained practical insights that bridge academic learning with industry application. The event also facilitated networking with professionals and organizations, offering valuable perspectives on current recruitment trends and in-demand skills. Overall, the program empowered participants to align their competencies with the evolving demands of the logistics and supply chain sector, preparing them for dynamic career paths.
