AVIT – ENVIRONMENTAL STUDENTS CLUB

REPORT ON WORLD ENVIRONMENT DAY – 2025

The EVS Club of AVIT successfully celebrated World Environment Day on June 5, 2025, under the global theme "Ending Plastic Pollution." As part of the observance, the club organized an online quiz competition to engage students in meaningful environmental learning and action. A total of 75 students registered for the event, representing various branches and academic years across AVIT. The quiz served as an inclusive platform, encouraging wide participation from the student community. The main objectives of the celebration were to raise awareness about the harmful effects of plastic pollution, promote sustainable habits and alternatives to single-use plastics, involve students and community members in environmental protection activities, and foster a sense of collective responsibility toward preserving the Earth. After attending the quiz program, the students gained a deeper understanding of the causes and consequences of plastic pollution, learned practical ways to reduce their environmental footprint, many pledged to reduce single-use plastic consumption and adopt eco-friendly habits. The strong turnout and active engagement reflected the growing environmental consciousness within the AVIT community. To acknowledge their efforts and encourage continued participation in sustainability initiatives, e-certificates were issued to all 75 registered students. These certificates recognized not only their participation but also their commitment to environmental awareness. Through the quiz competition, students were informed, inspired, and encouraged to act against plastic pollution. The event effectively promoted environmental responsibility and laid the groundwork for future sustainability-focused programs at AVIT.
