## ENERGY LITERACY TRAINING

Name: Dr. B. Parvathi Sangeetha

Designation: Assistant Professor GR-II/EEE

Climate change is real. It is mainly caused due to the overuse of fossil fuels – coal, oil, and gas. This energy swaraj literacy training helps in understanding the basic principle of energy consumption, and how one can minimize the usage and switch over to solar energy consumption. This 12 module course made us realize how we use lot of energy, how much is our carbon footprint and thereby how it lead to the Climate change. In addition it also remained of the Misconceptions about solar energy and made me realize the importance of solar energy.
