

KIDZ PAYANAM

The Rotaract Club of AVIT, in collaboration with the Rotaract Club of Chennai, successfully co-hosted the community service project "Kidz Payanam" on December 30, 2023, at Mahabalipuram. The primary aim of this project was to provide orphanage children with a unique opportunity for hands-on learning and exploration of new places. The event was designed to offer a day filled with educational and recreational activities, promoting holistic development among the participating children.

The objective of the event is to provide orphanage children with a memorable and educational outing. Foster a sense of curiosity and exploration among the children. The project involved taking approximately 240-250 orphanage children to three prominent locations in Mahabalipuram. The children had the chance to witness a variety of crocodile species, enhancing their understanding of wildlife conservation.

A visit to the Dinosaur museum provided an interactive and informative experience, allowing the children to learn about the prehistoric era in an engaging manner. The iconic Sea Shore Temple offered a glimpse into the rich cultural and historical heritage of Mahabalipuram.

The co-chairman of this project was Rtr.Yugendran, Joint Secretary, RAC-AVIT. "Kidz Payanam" exemplified the power of community service in creating positive impacts on the lives of orphanage children. The project successfully achieved its objectives, providing a platform for educational growth, cultural exposure, and memorable experiences for the participating children.
