ENERGY LITERACY TRAINING

NAME:Ms.A.SASIKALA

DESIGNATION: ASSISTANT PROFESSOR GR II

DEPARTMENT: BIOTECHNOLOGY/AVIT

The Energy Literacy Training by Swaraj Foundation was one of the eye opening online training programs for those people who do not have a basic idea of energy consumption, generation, alternative energy solutions, energy usage calculation and management. **“As per the quote “All of these energy savings ultimately mean better service to our residents that have fixed incomes. Every penny we save in energy costs will go directly into providing service to our seniors”,** Conservation of energy in any form helps our society development directly or indirectly. Through this training module, we were able to gain knowledge in effective ways of saving energy as well as using it efficiently. The course gave us a keen knowledge on of the renewable energy – Solar energy, which has the most promising future use. The material provided and video, quiz everything was easily understandable and were able to attend. Looking forward to be the part of this knowledge gaining programmes on energy in future.
