Overview of the seminar: Lab Animal Research and Ethics

DR SAV Satyamurthy, Campus Director, welcomed the guest of honour with shawl. He addressed the students with his positive notes.

Dr R Devika, Professor & HOD, Department of Biotechnology, has given brief overview about the seminar

Dr R Balachandar, Associate Professor, Department of Biotechnology has given the introduction about the eminent Guest speaker Dr Selvaraj, Scientist in charge , Centre for Laboratory Animal Technology and Research, Satyabama university.

Centre is CPCSEA approved laboratory with international standards. It is uniquely designed with sophisticated instruments especially for lab animals ultimately for the benefit of students and research scholars.

The session was on 'Lab animal research' by Dr. R. Selvaraj, stated the importance of lab animals in the research field. It was followed by when, where, who and how the animals to be handled and used. He explained different types of animals in research about their handling techniques right from their feed till their end. He has given awareness to the students about the importance of lab animals in the research field. Additionally, he encouraged the students to do research with purpose. Finally he concluded the seminar by saying the concept of 3R – Refinement, replacement and Reduction.

Dr B Prabasheela proposed the vote of thanks on this occasion.
