

**ENGINEERING DESIGN COLLEGIATE CLUB (EDCC)
ENGINEERIA – 2K'19
ENGINEERING DESIGN TALENT HUNT – 06.11.2019**

“ENGINEERING DESIGN COLLEGIATE CLUB” (EDCC), Department of Mechanical Engineering, AVIT, organized a **Design competition** in association with CADD CENTRE for engineering students of II, III & IV year students of Mechanical & Automobile Engineering to motivate and enhance the Design skills of the students. The competition consisted of two rounds.

Round 1: The round was intended to test the knowledge of the student to understand the Engineering Drawings. The top **38 students** were short listed for second round, where Isometric drawings, Machine components were given and a quiz questionnaire was framed to test the Engineering design knowledge.

Round 2: The round was conducted to motive the creative thinking of the student and to test the knowledge in drafting using **CATIA software**. **16 students** were selected. The student has to design a component on his own like, Mechanical component design, Sports utilities, Jewellery, Robotics, Automation and Automobile etc.
