

## Tree Plantation 2017

The NSS Units of Aarupadai veedu Institute of Technology has launched tree planting in AVIT campus as an attempt to restore a portion of the green cover destroyed by cyclone Vardha. Planting of 100 trees was inaugurated on July 27<sup>th</sup> 2017 at AVIT campus. Cutting a swath through Chennai and uprooting trees, Vardha demonstrated that native trees are more cyclone-resistant as the nature's fury casually uprooted alien species. Post-Vardah, the emphasis has largely been on introducing native trees while restoring the city's lost green cover. The tree planting was inaugurated by Principal Dr.Vemuri Lakshmi Narayana . Heads of Departments all Departments, Deans, Faculty and Vice Principal Mr.Vijeyandra Babu also joined the occasion. The program arrangements were made by Mr.Varun Stanley NSS programme Officer and Administrative officer Mr.Padmanaban.
