### **NSS ACTIVITY**

#### **REPORT ON NILAVEMBU KUDINEER DISTRIBUTION**

Dengue virus is an infectious agent that causes the tropical disease. Dengue viruses are spread to people through the bite of an infected Aedes species. Tamil Nadu has a record of around 3000 dengue case out of which 2000 cases have reported in past two months. The outbreak of Dengue has created threat among people. The NSS Unit, under ISR cell volunteered to create awareness and prevented the AVIT students from Dengue and other prevalent viral fever. The Unit has sought the help of Department of Biotechnology for creating awareness about dengue and survey on viral infection in AVIT campus. The Distribution of “NILAVEEMBU KUDINEER” was held on **November 5<sup>th</sup> 2019** under the guidance of Dr.B.Prabasheela, NSS Programme officer. The Vice Principal’s of AVIT Prof. Rajasekaran (Admin) and Dr. Sangeetha (Academics) inaugurated the function by consuming the kasayam. Dr.B.Prabasheela addressed the students about the importance of the Nilavembu. The Nilavembu Kudineer was then distributed to all the students, teaching and non teaching staff as preventive measures.

**INAUGURATION BY VICE PRINCIPAL'S PROF.RAJASEKARAN (ADMIN) AND  
DR.SANGEETHA (ACADEMICS)**
